#### RULES.

1. These rules may be cited as the Madras Factories (Cotton Mills) Ventilation and Humidification Rules, 1926, and shall come into force on 1st March 1927.

2. These rules shall apply to Cotton Mills.

3. In these rules

(*a*) Artificial humidification means the introduction of moisture into a room by any artificial means whatsoever, except the use of gas or oil for lighting purposes, or the unavoidable escape of steam or water vapour into the atmosphere directly due to the treatment of the fibre by water or steam in its passage through the machine.

Provided that the introduction of air from outside through moistened mats or screens placed outside, open windows and ventilation openings at times, when the temperature of the room is 80° Fahrenheit or more, shall not be deemed to be artificial humidification.

(*b*) Hygrometer means an accurate wet and dry bulb thermometer complying with the conditions prescribed in rules 11 to 18 of these rules.

(*c*) Degrees of temperature means degrees on the Fahrenheit scale.

(*d*) Cooling power means the cooling power of the air in milli calories per square centimeter per second as measured by a kata-thermometer.

(*e*) Kata-thermometer means the instrument invented by Professor Leonard Hill, M.B., F.R.S., and manufactured by John Hicks & Co., Hatton Gardens, London, for measuring the cooling powers of the air.

4. The introduction of artificial humidity into any room in a cotton mill shall cease whenever the wet bulb reading of the hygrometer provided in the room is higher than that specified in the schedule annexed hereto for the wet bulb reading corresponding to the dry bulb reading of the same hygrometer at the same time.

Where the dry bulb reading is intermediate between two consecutive dry bulb readings as indicated in the schedule, the lower of the two dry bulb readings shall be deemed to be the dry bulb reading of the hygrometer for the purposes of this rule.

*Explanation*.—Where there is more than one hygrometer in the room, the average readings of all the hygrometers shall be taken for the purposes of this rule.

5. Rule 4 shall not apply when

(a) the difference between the wet bulb reading as indicated by the hygrometer in the room concerned, and the wet bulb reading taken with a hygrometer outside in the shade is less than 3·5° Fahrenheit, or

(b) the cooling power of the air in the room as measured by the wet reading of a kata-thermometer at a height of 5 feet in all usual working places is greater than 11 milli calories per square centimetre per second.

6. In any room in which steam is used for the purpose of artificial humidification, its introduction shall cease when the dry bulb temperature of the room exceeds 83° Fahrenheit.

7. In all rooms in which artificial humidification is used, hygrometers on the scale laid down below shall be provided and maintained :—

(a) *Weaving departments*.—Two hygrometers for each room with less than 500 looms, and one additional hygrometer for every 500 or part of 500 looms in excess of 500,

(b) *Other departments*.—One hygrometer for each room of less than 300,000 cubic feet capacity, and one extra hygrometer for each 200,000 cubic feet, or part thereof, in excess of this.

(c) One hygrometer shall be provided and maintained for taking shade temperatures. This shall be fixed in a position approved by the Inspector.

8. If it is proved to the satisfaction of the Chief Inspector of Factories that in every room in a department, not being a weaving department of a cotton mill, the limits of humidity allowed in the schedule are not ordinarily exceeded, the Chief Inspector of Factories may, by an order in writing exempt that department from the provisions of rules 4 and 7. The Manager of the Factory shall have a copy of such order pasted in the inspection book maintained under rule 4 of the Madras Factories (Amended) Rules, 1923.

9. A copy of the schedule appended to these rules shall be affixed near each hygrometer and maintained in a legible state.

10. (1) The correct wet and dry bulb readings shall be recorded at each hygrometer by competent persons appointed by the manager of the factory and approved by the Inspector at the following times on every working day :—

(a) Once between 7 and 9 a.m.

(b) Once between 11 and 2 p.m.

(c) Once between 4 and 5-30 p.m.

(2) These temperatures shall be recorded at the time of reading in a pocket note-book in Form I appended to these Rules and entered in a special Humidity Register in Form II appended hereto. The pocket note-book and the register shall be maintained in a clean and legible state. At the end of each week the person making the readings shall sign the register and certify that the readings are accurate and that each hygrometer has been maintained in accordance with the rules. The Register and the pocket note-book shall at all times be available for inspection by the Inspector and copies of the entries made therein shall be sent to him whenever he so requires.

(3) The entries made in the Register shall be considered as *prima facie* evidence of the temperature and humidity of any department but an Inspector may at any time check the correctness of the readings by personal observations.

(4) Every hygrometer maintained in a cotton mill under these Rules shall be given a serial number in the Humidity Register and such numbers shall be marked on the respective hygrometers and referred to in the pocket note-book.

(5) Forms I and II shall be used for recording the temperatures. Copies of the forms can be had on payment from the Inspectors of Factories.

11. Every hygrometer shall be constructed and maintained in the manner mentioned below :—

(a) It shall comprise two mercurial or alcohol thermometers, similar in construction and equal in dimensions, scale, and divisions of scale. Each hygrometer shall be mounted in a wooden or metal frame and have a suitable receptacle containing water.

(b) The wet bulb shall be closely covered with a single layer of fine muslin, kept wet by means of a cotton or woollen wick attached to it and dipping into the water of a reservoir. The muslin covering the wet bulb and the wick shall be suitable for the purpose and clean. Previous to use, all size and grease shall be effectively removed by boiling the muslin in water.

(c) The length of the wick between the wet bulb and the point where it dips into the water reservoir shall not exceed three inches. The muslin shall be attached to the wet bulb by means of a slip knot on the wick which shall not be so tight as to hinder the free flow from the reservoir.

12. Each thermometer shall have the following characteristics :—

(a) the bulb shall be spherical, and of suitable dimensions ;

(b) The bore of the stem shall be such that the top of the mercury or alcohol column may be clearly defined, and correct readings made at a distance of 2 feet ;

(c) each thermometer shall be graduated so that accurate readings may be made up to 120 degrees Fahrenheit ;

(d) every degree from 50 degrees Fahrenheit up to 120 degrees shall be clearly marked on the glass stem of the instrument itself, each fifth and tenth degree shall be marked by longer marks than intermediate degrees, and the number marked opposite each tenth degree, *i.e.*, 50, 60, 70, 80, 90, 100, 110 and 120.

(e) the marking shall be accurate to within 2 degrees at all readings between 50 and 120 degrees.

(f) The accuracy of each shall be certified by the National Physical Laboratory, London, or the Meteorologist, Madras, and such certificate shall be kept attached to the Humidity Register.

If an Inspector gives notice in writing that a thermometer is inaccurate, it shall be replaced by another of certified accuracy within two months ; unless after examination by the certifying authority named above a fresh certificate of accuracy has been obtained within that time, in which case the new certificate shall be attached to the Humidity Register.

13. Every hygrometer shall be so mounted that

(a) the accuracy of the dry bulb temperature shall not be affected by the proximity of water in the reservoir ; and

(b) the bulb of each thermometer shall be freely exposed on all sides to the air of the room.

14. Every hygrometer shall be maintained at all times during the period of employment in efficient working order so as to give accurate readings and

(a) the muslin covering and wick of the wet bulb shall be renewed once a week;

(b) the water in the reservoir shall be renewed as frequently as is necessary to keep the receptacle at least half full of water;

(c) the water used shall be distilled, boiled or pure rain water.

15. No readings of the hygrometer shall be taken within fifteen minutes of the renewal of the water in the reservoir.

16. No hygrometer shall be affixed to a wall, pillar or other surface unless suitably protected from it by a non-conducting material.

17. No hygrometer shall be suspended at a height of more than 6 feet from the floor of a room or in the direct draught from a fan, window or ventilating opening.

18. (a) The positions of hygrometers shall be such as to give an accurate indication of the temperature of the room in which they are hung. The positions and construction of the hygrometers shall be approved by the Inspector subject to confirmation by the Chief Inspector of Factories.

(b) The outside hygrometer provided for taking shade temperatures under rule 7 (a) shall be placed in such a position as to be protected at all times from the direct rays of the sun and from rain, and capable at all times of giving the shade temperatures.

*Fort St. George, August* 13, 1926
(*G.O. No.* 3558, *L. & M.*).

*No.* 921.—Under section 46 (2) of the District Municipalities Act, 1920, any company or association which is entitled to vote can exercise the franchise through its Secretary or through some other person who is authorized by it for the purpose. It has been pointed out that this provision is no authority for the Secretary or the person authorized being shown in the electoral roll in the capacity of a representative of the company or association and that the electoral roll should primarily contain the name of the company or association as a voter. The Government accept this view. Rule 2 of the rules for the preparation of electoral rolls of municipalities is not consistent with this view and will accordingly be omitted.

2. As a consequence of the above change, it is necessary to make special provision for the company or association registered in the electoral roll giving intimation to the Chairman some time before the election is held as to the person who will vote for it.

The Government accordingly propose to add the following rule to the rules for the conduct of elections of municipal councillors :—

"1-A. Any company or association which is entitled to vote in the ward for which an election is

to be held shall, not less than three days before the date fixed for the receipt of nominations, give written intimation to the Chairman specifying the name of the person, if any, authorized by it to vote on its behalf. Intimations received after that period shall be rejected."

3 The appended notifications will be published in the *Fort St. George Gazette*.

APPENDIX

NOTIFICATIONS.

Notice is hereby given that the said draft will be taken into consideration by the Local Government after six weeks from the date of the publication of this notification.

*Draft amendment to the rules for the preparation of electoral rolls*

"Rule 2 shall be omitted."

(2)

The following draft of an amendment in the rules for the conduct of elections of municipal councillors published in Local and Municipal Notification No. 1120, published on pages 596-600 of Part I-A of the *Fort St George Gazette*, dated the 23rd November 1920, as last amended in Notification No. 583 of Part I-A of the *Fort St George Gazette*, dated the 15th June 1926, which the Local Government propose to make in exercise of the powers vested in them under clause (i) of sub-section (2) of section 503 of the Madras District Municipalities Act, 1920, is published for general information. Notice is hereby given that the said draft will be taken into consideration by the Local Government after six weeks from the date of the publication of this notification.

Any objection or suggestion which may be received from any person with respect to the draft before the said date will be considered by the Local Government.

The following rule shall be inserted as rule 1-A, namely :—

"1-A. *Fort St. George, August 17, 1926*
*(G.O. No. 3604, L. & M.).*

*No.* 922.—The following questions have been raised in connexion with the fixing of polling stations for the election of members of taluk boards :—

(1) Whether it is the Taluk Board President concerned or the Revenue Divisional Officer or the Registration Officer that has the power to fix the polling stations for the different electoral circles; and (2) whether the President of a Taluk Board can vary, or add to, the polling station or stations already entered by the Revenue Divisional Officer in Form I referred to in the rules for the preparation of electoral rolls for taluk boards.

The appended opinion of the Advocate-General on the points raised above is communicated to all taluk boards for information and guidance. Before the electoral roll is prepared the Revenue Divisional Officer should obtain from the Taluk Board President concerned the name or names of the polling station or stations to be entered in Form I for each circle and make entries accordingly.

APPENDIX

OPINION.

[*Reference*—Memorandum No. 9134-3-A-1/L. & M., dated 10th July 1926.]

There are rules for the annual preparation and publication of electoral rolls under section 51 of the Madras Act XIV of 1920 and there are also rules under section 139 (2) (*b*) with reference to elections.

The first set of rules have no connexion with the fixing of polling stations for election. It merely provides that "the list shall be prepared in the form prescribed and shall also contain *such other particulars* as the taluk board may determine." The form prescribed contains a reference to "polling station" and therefore "other particulars" do not include polling stations among them. The only consequence is that there is no option to include "polling station" among the particulars to be specified in the form. The form prescribes entry of the polling station and it may be assumed that it must be entered in it. Neither the rule which relates to the electoral roll nor the form in which the roll should be prepared says who should fix the polling stations for elections. On the other hand the body of rules as to election (which alone may appropriately include a direction as to who should fix the polling stations) does provide that the president of the taluk board should prepare and publish a notice stating among other things "the place or places where the votes of the electors will be taken, should there be a poll." It is thus the right and duty of the President of the Taluk Board to fix the polling stations and this is not in any way affected or modified by the form prescribed for the preparation of the electoral roll.

If a polling station is mentioned in the electoral roll and at the time when the President of the Taluk Board comes to issue his notice he mentions a different polling station for the voter, the latter is the proper place for the casting of his vote. As far as possible conflict on this matter should be avoided but it is within the power of the President, Taluk Board, to fix a different place if he thought it necessary or preferable and his choice will prevail and determine the place of voting.

This rule shall apply only to vendors of articles of food carrying on business in an area to which the Madras Prevention of Adulteration Act, 1918, applies.

2. Every package, receptacle, vessel or parcel containing a food which is not pure by reason of any addition, admixture or deficiency shall be labelled with an adhesive label, hereinafter referred to as the declaratory label, which shall be in the form and contain the information indicated in the label printed in the schedule to these rules. Such information shall be printed in block type upon a white ground in the centre of the declaratory label, and nothing else shall be printed on the declaratory label, except the name of the food, the nature of the addition, admixture or deficiency, and the maximum amount per cent of such addition, admixture or deficiency. The declaratory label shall be clearly visible to the purchaser and shall measure at least four inches by four inches.

3. The declaratory label shall be printed in English and in the chief vernacular language of the district in which the food is sold or offered for sale.

*No.* 925.—In exercise of the powers conferred on them by clause (*e*) of section 20 of the Madras Prevention of Adulteration Act, 1918 (Madras Act III of 1918), the Local Government are hereby pleased to make the following rules:—

RULES.

1. In these rules the Act means the Madras Prevention of Adulteration Act, 1918.

*Cow's milk.*

2. Where a sample of cow's milk (not being sold as skimmed or separated milk) contains less than 3 per cent of milk-fat, it shall be presumed for the purposes of the Act, until the contrary is proved, that the milk is not genuine, by reason of the abstraction therefrom of milk-fat, or the addition thereto of water.

3. Where a sample of cow's milk, whether sold as cow's milk or as skimmed or separated cow's milk, contains less than 8·5 per cent of milk-solids other than milk-fat, it shall be presumed for the purposes of the Act, until the contrary is proved, that the milk is not genuine by reason of the addition thereto of water.

4. Where a sample of cow's milk, whether sold as cow's milk or as skimmed or separated cow's milk, contains less than 0·5 per cent of nitrogen, it shall be presumed for the purposes of the Act, until the contrary is proved, that the milk is not genuine by reason of the addition thereto of water.

*Buffalo's milk.*

5. Where a sample of buffalo's milk (not being sold as skimmed or separated milk) contains less than 4·5 per cent of milk-fat, it shall be presumed for the purposes of the Act, until the contrary is proved, that the milk is not genuine by reason of the abstraction therefrom of milk-fat or the addition thereto of water.

6. Where a sample of buffalo's milk, whether sold as buffalo's milk or as skimmed or separated buffalo's milk, contains less than 9 per cent of milk-solids other than milk-fat, it shall be presumed for the purposes of the Act, until the contrary is proved, that the milk is not genuine by reason of the addition thereto of water.

7. Where a sample of buffalo's milk, whether sold as buffalo's milk or as skimmed or separated buffalo's milk, contains less than 0·53 per cent of nitrogen, it shall be presumed for the purposes of the Act, until the contrary is proved, that the milk is not genuine by reason of the addition thereto of water.

*N.B.*—The minimum limits for nitrogen in rules 4 and 7 above are intended to be used in those cases in which the sample of milk when it is analysed is so far decomposed that an examination of the proportion of milk-solids other than milk-fat in the sample before decomposition will be unreliable, the proportion of nitrogen not being appreciably affected by decomposition.

*Cow's or buffalo's milk.*

8. Where a sample of milk, separated milk or skimmed milk sold or exposed for sale without any indication as to whether it is derived from the cow or the buffalo by a comparison with the minimum limits given for cow's milk in rules 2, 3 and 4 appears to be adulterated, it shall be presumed for the purposes of the Act, until the contrary is proved, that the milk is not genuine for the reason given in the rule or rules which are applicable

*Maximum limit for dirt in cow's or buffalo's milk.*

9. Where a sample of milk, separated or skimmed milk, deposits, on standing for a period of 24 hours, or less, an amount of visible sediment exceeding 5 parts per 100,000 (both milk and sediment being measured by volume), it shall be presumed for the purposes of the Act, until the contrary is proved, that the milk is not genuine by reason of its containing an excessive amount of dirt.

*Butter from cow's or buffalo's milk.*

10. Where the proportion of water in a sample of butter made from cow's or buffalo's milk exceeds 20 per cent, it shall be presumed for the purposes of the Act, until the contrary is proved, that the butter is not genuine by reason of the excessive amount of water therein.

*Ghee.*

11. Where the proportion of water in a sample of ghee exceeds 1 per cent, it shall be presumed for the purposes of the Act, until the contrary is proved, that the ghee is not genuine by reason of the excessive amount of water therein.

(*3*) The Governor General in Council shall from time to time determine, in accordance with the provisions of sub-section (*2*), the equivalent rate in respect of each country notified under sub-section (*1*), and shall notify the rates so determined in the *Gazette of India*.

## STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to give effect to those recommendations of the Royal Commission on Indian Currency and Finance which relate to the immediate stabilisation of the Rupee in relation to gold and to the interim measures required during the transition period pending the bringing into operation of their proposals for the transfer to a Reserve Bank of India of the control of the Note issue and other functions at present performed by the Secretary of State and by the Government of India.

2. The Commission recommend in paragraph 175 of their Report that the Rupee should be stabilised in relation to gold at a rate corresponding to an exchange rate of 1*s*. 6*d*. gold for the rupee, that is, at the rate of one rupee for 8·47512 grains of gold. Clause 2 and all but the last portion of sub-clause (*c*) (*i*) of clause 3 are designed to give effect to this recommendation and at the same time to remove the legal tender quality of the sovereign and the half sovereign, which are at present legal tender at the rate of 2*r*. for the rupee, in accordance with the Commission's recommendation in paragraph 66 of their Report that these gold coins must be demonetised in order to enable a real gold bullion standard to be established.

3. The Commission recommend in paragraph 156 of their Report that, until the Reserve Bank of India takes over the control of the Note issue, the Government of India must be under a statutory obligation to buy gold and to sell gold or gold exchange at its option at the gold points of the accepted gold parity of the rupee. Clauses 4 and 5 are designed to give effect to this recommendation and are based on the outline suggested in Schedule V to the Report.

4. Opportunity has been taken to amplify the *Explanation* to sub-section (*5*) of section 19 of the Indian Paper Currency Act, 1923,

which contains the temporary provisions, so as to provide for the valuation of the gold bullion held in the Paper Currency Reserve on the lines of clause (a) of sub-section (3) of section 18 which refers to the permanent provisions which have not yet come into force.

5 It was announced in the press communiqué dated August the 4th, 1926, which accompanied the issue of the Commission's Report, that, pending legislation, the Government would take such steps as may be necessary to confine the movements of exchange within the approximate upper and lower gold points as calculated on the basis of a 1s. 6d. rupee, namely, 1s. 5 $\frac{31}{32}$d. and 1s. 5$\frac{1}{2}$d., respectively, and the Government undertook in the same communiqué to lay proposals before the Legislature during the forthcoming Session in order to give the Legislature the earliest possible opportunity of considering the matter. This Bill is designed to give effect to that undertaking.
